- WHAT CANNACOPIA DOES: With over 7500 available marijuana strains to choose from, Cannacopia solves the users' confusion of what strains of cannabis to purchase, where to purchase, how much to spend, and where to find the best value. Users can rate, recommend, and review. Cannacopia also displays high-resolution images of the recommended strains for use as comparison at purchase time.
- HOW CANNACOPIA DOES IT: Consumers no longer need to spend time searching from strain to strain just to find the ones they want. No other app does this, and you can't even search Google to find these results.
